Next Generation Sensors Z

smart | easy to use | cost effective

4 inputs with polarised and strain-relieved plug connections

Self-sufficient and maintenance-free **(battery-free)**

Metering data:
- RMS currents
- active powers
- mains voltage
- power factors
- mains frequency etc.

Data transmission up to several kilometres via **LoRaWAN**

Quick installation via **magnetic holder**

Easy configuration and firmware updates via **USB-C**

Can be used with the **deZem IoT platform** and any other platform
